

B-TOP RESTORER

ABRASIVE CREAM FOR POLISHING AND REMOVING FROM LIGHT SURFACE SCRATCHES AND ETCH MARKS

Specific mild abrasive polishing cream for repolishing and restoring light surface marks, scratches and etch marks on small tables, vanity units, kitchen and countertops. Product restores original surface gloss eliminating signs and marks from surface.

SURFACES

Marble, granite, quartz and composite worktops, vanity units, tables, window sills, vases, statues and other small natural stone polished surfaces.

FEATURES

Product can be used manually to restore small scratched and etched areas. Simple and easy to use, the product does not dull or scratch surface. Ideal for the removal of hard water residues and limescale from polished surfaces.

HOW TO USE

Shake well before using. Apply a few drops of product to the area to be polished. Using a white felt nylon pad, agitate product manually with circular movements until product is nearly dry. Remove residues using a damp cotton cloth and control result. Multiple applications may be needed. Note: for stubborn deeper marks to obtain better results, the product can be used together with a manual held orbital tool at low-minimum speed and white felt pad.

ADVANTAGES

Product allows to restore light superficial scratches and etch marks on surfaces without the need of machinery or professional help. Ideal for all residential applications, bars and hotels where marble and acidic sensitive materials are constantly used and therefore damaged over time due to standard use.

ADVICE

Once the scratches and marks are no longer visible, we recommend protecting the surface using our product B-3 ACTION TOP (Code P100) for complete surface protection and periodic maintenance of the surface.

CHEMICAL PROPERTIES

ASPECT: Cream

COLOUR: White

ODOUR: N.A.

SOLUBILITY: Partially soluble in water

PH: 7,50±0,50

INDICATIVE COVERAGE FOR LITRE

Not indicated

ATTENTION:

Carefully read the recommendations printed on the label. Always test before use. Do not dispose of the container in the environment after use, follow the disposal information indicated on the label. Keep out of reach of children. The product has anti-stain properties but does not protect surfaces from acids. Check the actual resistance of the material to the product on a hidden portion of the surface to be treated. When using the product, use suitable PPE and consult the safety data sheet.
