Properties:	AKEMI® Natural Stone Basic Cleaner is an acid-free, ready-to-use cleaner made of non-ionic surfactants, auxiliary materials, odoriferous substances and solvents. The product is free from phosphates and bases; the surfactants contained are biodegradable according to current legislation for surface-active agents. When used properly, surfaces made of natural and artificial stone which have been treated with AKEMI® Natural Stone Basic Cleaner are toxicologically harmless upon contact with food in accordance with DIN 10516 (confirmed by an external German testing institute).
Application Area:	AKEMI® Natural Stone Basic Cleaner is suited for a fast and thorough cleaning of kitchen worktops, counter tops and other small surfaces made of natural and artificial stone, e.g. marble, travertine, slate, granite, bricks and cotto slabs, tiles, fair-faced concrete and similar materials. It removes residues of food, slight traces of oil and grease as well as slight layers of stone care products and wax.
Instructions for Use:	<ol style="list-style-type: none">1. Spray evenly on the surface to be treated.2. Spread with a humid cloth and allow to work for a short period of time.3. Take off the dirt with a humid cloth and wipe the surface well with a lint-free cloth until the surface is free of streaks.4. For stubborn dirt, repeat the procedure and allow AKEMI® Natural Stone Basic Cleaner to work for a longer period of time. If necessary, scrub the surface with a brush.
Special Notes:	<ul style="list-style-type: none">- Do not apply on synthetic materials which are not resistant to solvents or rubber. If in doubt, test on an inconspicuous area.- A surplus of the product causes blooming and spotting, which can be removed with water.- For proper waste disposal, the container must be completely emptied.- Recycling in accordance with the guidelines of EU Decision 97/129 EC on the Packaging Directive 94/62/EC.
Technical Data:	Colour: colourless Density: approx. 1.01 g/cm ³ pH value: approx. 9
Storage:	If stored in dry and cool condition (5-25°C/41-77°F) in its closed original container at least 24 months from production.
Health & Safety:	Read Safety Data Sheet before handling or using this product.
Important Notice:	The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information – as well as other oral or written technical advises – must be considered as non-binding hints. The user is obliged in each particular case to conduct performance tests, including but not limited to trails of the product, in an inconspicuous area or fabrication of a sample piece.
